

Title and Abstract

Title

- Keep it short and punchy, describe what the talk is about

Abstract

- 2 paragraphs
- Describe what you are going to talk about and what you want people to leave with

Finish this by Wednesday lunch time and upload to github

Content

- Keep it simple
- Keep it company agnostic, try to create your slides and talk for someone else to present
- Make it fun but factual
- Your talk should be 30 minutes + 10 minutes Q&A

Use HTML in your slides

Awesome slides for my talk

- Please use Marp <https://yhatt.github.io/marp/>
- Think about imagery if we are open sourcing this may or may not be a problem

Q&A

- Try to keep generic instead of NOTHS specific
- Repeat the question which was asked in order for it to be recorded on video

Don't Panic

- You will be awesome
- We will love your talk
- We appreciate your effort
